

Be an AT Quant!

(Fun and Excellence through the Use of Data)

Heidi Koester, Ph.D.
 hhk@kpronline.com
 Koester Performance Research, Ann Arbor, MI
 www.kpronline.com

Overview – Be an AT Quant!

- Brief introduction
- Use of evidence in computer access and AAC
- All-purpose outcome measurement tools

A (brief) tale of quants and heuristics

- “quants” -- people with skills in quantitative measurement and analysis
- “heuristic” – experience-based method of decision-making. E.g., using rules of thumb, educated guess, common sense, etc.
- AT, like political strategy, baseball, and other fields, includes this combination of art and science, opinion and facts, intuition and evidence.

Today's Goal

- Introduce some quant seasoning to AT service delivery...
- See what value that might add
- And how difficult/easy it might be

Types of Evidence

- Observation
- User Feedback
- **Measurement**

Quant Evidence – example uses

- Setting goals: therapy, IEP, etc.
 - Identifying needs
 - Justifying areas of work
- Funding support
- Choosing methods and techniques
- Optimizing configuration
- Tracking progress
- Measuring outcomes

The “Pain” of Outcome Measures

- Perception that outcome measures are:
 - Developed by Academics and Researchers
 - Enforced by Management
 - Endured by Clinicians

Tools for Computer Access Measurement

- Assess user abilities that are most relevant to computer usage
- Speed and accuracy during performance of specific fundamental tasks, such as:
 - Text entry
 - Target selection
 - Target dragging
 - Switch press

Computer-based Measurement Tools

- Present tasks that are repeatable, relevant, and realistic
- Efficient data collection and report generation
- Ideally – get the information you need, in less time!
- Focus on KPR software, but will mention other options

Data for Text Entry

- Using keyboard or alternatives such as on-screen keyboard, speech recognition, scanning
- Some external evidence exists
 - www.kpronline.com/files/externevidresna2006.pdf
- Gather internal evidence about the user:
 - Choose the best text entry method
 - Configure the text entry method
 - Track progress

Skills & Measures for Text Entry

- Reliable and efficient access to all characters and functions
- Words (or characters) per minute
 - overall and with errors removed
- Errors
- Complements observations and feedback

Gathering Text Entry Evidence

- List of tools:
 - “Standard” typing tests
 - TextTest and StreamAnalyzer
 - Compass software
 - Keyboard Wizard

KPR Koester Performance Research

Free Typing Tests

- TypingTest.com
- speedtest.10-fast-fingers.com
- Typical limitations:
 - Distracting screen
 - One size fits all
 - Can't save results
 - Psychometric validity unknown

Compass Sentence Report

Client: Joan Smith
Test Date: Aug 25, 2007 7:25:26 PM
Evaluator:

Summary Results: Sentence 1

Test Configuration

Configuration Name: Standard
Setting: value
Input Device: Not Specified
Test Language: English
Number of Trials: 2
Sentence List: Set 2
Allow Edit: Yes
Case Sensitive: No
Send Score: No
Test Style: Standard - No Bold
Test Color: Black
Background Color: White
Input Device: Not Specified

Description of the Sentence Test
The Sentence Test asks the user to copy a series of single sentences. Individual sentences are presented one at a time.

Summary of Results

Result	% (N)	Trial Time (sec)	Typing Speed (wpm)	Total Errors (%)	Net Errors (%)
Error-free Sentences	0% (0/4)	0	0	0	0
Sentences Correct by End of Trial	50% (2/4)	12.93	26.91	6.45	0
Incorrect Sentences	50% (2/4)	8.77	26.67	46.82	46.82
All Sentence Trials	100% (4/4)	10.85	26.82	26.64	23.41

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Sentence Report

Summary of Results

Result	% (N)	Trial Time (sec)	Typing Speed (wpm)	Total Errors (%)	Net Errors (%)
Error-free Sentences	0% (0/4)	0	0	0	0
Sentences Correct by End of Trial	50% (2/4)	12.93	26.91	6.45	0
Incorrect Sentences	50% (2/4)	8.77	26.67	46.82	46.82
All Sentence Trials	100% (4/4)	10.85	26.82	26.64	23.41

- Typing Speed, wpm
- Comparing Total and Net Errors shows how well user could identify and fix mistakes.

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Comparison Report

A. Speed-Accuracy Graph for Sentence Tests
Description: This graph summarizes the speed and accuracy measured during the evaluation. Tests with the best performance (best speed and best accuracy) are in the upper right corner. Net Accuracy represents accuracy of the test at the completion of the test. Typing Speed represents the typing speed across all trials and per minute.

Speed-Accuracy for Sentence Tests

Typing Speed (words per minute)

Net Accuracy (%)

Standard Small Fontsize On-screen keyboard

C. Speed Graph for Sentence Tests
Description: This graph summarizes the speed measured during the evaluation. Tests with the fastest speed have longer bars. The Typing Speed represents the test input speed in words per minute.

Speed for Sentence Tests

Keyboard Wizard

- To establish Sticky Keys and repeat settings

- Type a sentence

Keyboard Wizard by KPR

Type a Sentence
Type the sentence exactly as shown. Click Next when you are done.

The Red River may flood Northern Texas!

the Red Riv

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

2. Get recommendations, based on how you typed.

Keyboard Wizard by KPR

View Recommendations

Congratulations, you finished the first task!

Your Recommended Settings

Sticky Keys: Change from OFF to ON
Repeat Delay: Change from 0.5 sec to 0.889 sec
Repeat Rate: Change from 0.033 sec to 0.222 sec

Learn More Click to learn more about these settings

Note: The wizard has activated the recommended settings, for now. You will be able to choose which settings you want to keep using, later in the wizard.

Click Next to try out the recommended settings.

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

3. Try out the new settings

Keyboard Wizard by KPR

Practice with the Recommended Settings

Type the phrase below. For more practice, just keep typing.

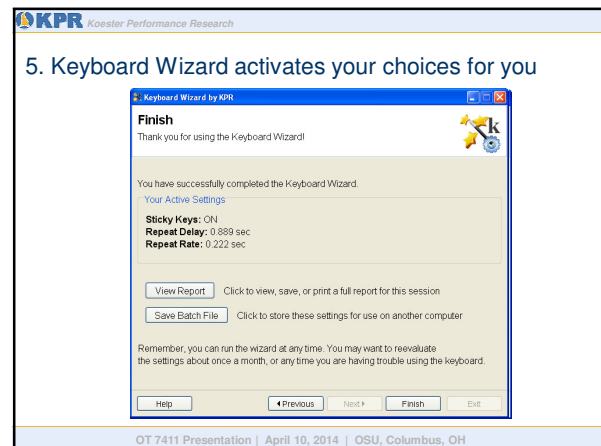

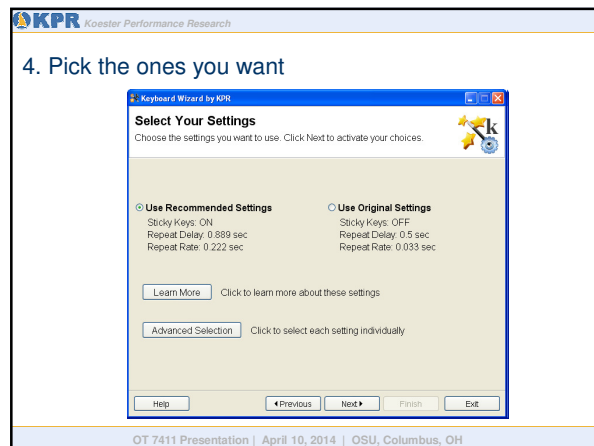

Remember, the recommended settings have been activated temporarily, for you to try. Later in the wizard, you'll choose the settings you want to keep using.

Try Sticky Keys: To type capital 'N' with Sticky Keys, first press the 'Shift' key, followed by the 'n' key, instead of pressing both at the same time.

The United Nations

☐ Present a timed sentence as my next step

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Text Entry Example

- 68 y/o woman with multiple sclerosis
- Runs through Keyboard Wizard
- Adjusting auto-repeat setting:
 - Improved typing speed 50% (from 2.2 to 3.2 wpm)
 - Reduced errors 32 pp (from 60% errors to 28%)

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Data for Pointing Device Use

- Select best pointing method
 - Mice, trackballs, trackpads, head-controlled mice, keyboard-based approaches, etc.
- Configure for user's needs
 - Location, splinting, device behavior, etc.
- Follow-along
- Very little external evidence available

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Skills & Measures for Pointing

- Target Acquisition
 - Dwell, click, double-click
- Dragging
- Menu Selection
- Speed & accuracy
- Complements observations & feedback

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Gathering Pointing Device Evidence

- Research-based tools:
 - Compass software
 - Pointing Wizard
 - Assessment of Computer Task Performance (paper-and-pencil protocol)

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Software

- Aim, Drag, and Menu tests specifically for pointing device skills
- Assess on-screen keyboard use with text entry tests
- Setup is highly customizable, if desired
- Validity has been demonstrated
- Compatible with alternative inputs and outputs
- Reports and data are stored for easy review and retrieval

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Example

- Selecting the best pointing device for an individual with upper extremity impairments
- Young adult with CP performed Compass Aim tests with three different pointing devices
- Test set-up was identical for each device

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Aim Test

- Measures speed and accuracy of user's target selections
- Reports averages across targets, as well as target-by-target data

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Compass Example: Results

- Control looked similar, qualitatively
- But performance was much faster with the mouse
- Provides team (including user) with means of making an informed decision

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Pointing Wizard Example

- Adjusting Windows settings to meet a user's needs
- Pointer speed: gain of the pointing device
- Double-click settings:
 - Double-click time
 - Double-click distance
- Object sizes: menus, caption buttons, scrollbar, taskbar

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Pointing Wizard Example

- Woman post brain tumor
- Results with new settings:
 - 60% faster
 - 50% fewer clicks (relative to default)
- Last 12 people tested averaged 30% improvement

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Data for Switch Use

- Select best switch
 - Location
 - Activation method
- Configure scanning software
 - Scan rate
- Compass or SSPT for gathering evidence

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Skills & Measures for Switch Use

- Reliable and efficient switch press
- Press time
- Release time
- Errors (extra switch hits)
- Complements observations and feedback

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

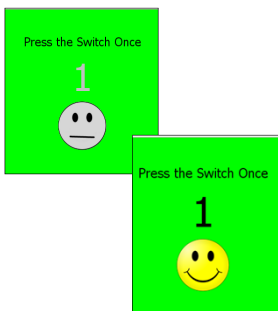

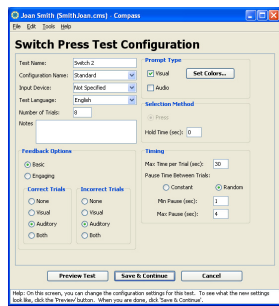

Single Switch Performance Test

- Free from www.aacoinstitute.org
- Three Tests
 - Activation
 - Release
 - Repetition
- Limited configuration and reporting

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Compass Switch Press Test

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Compass Switch Report

Summary of Results

Result	% (N)	Trial Time (sec)	1st Press Time (sec)	Release Time (sec)	Switch Hits
Correct Trials	100% (10/10)	1.49	1.03	0.46	2.1
Incorrect Trials	0% (0/10)				0
No Switch Pressed	0% (0/10)				0
All Switch Trials	100% (10/10)	1.49	1.03	0.46	2.1

Recommendations

These recommendations are based on your use of the switch during the test. They relate to using the switch to make choices in an automatic scanning system. Feel free to ignore these if you have no plans to use your switch with a scanning system.

Setting	Value	Description
Scan Rate	1.751 sec	The amount of time that items remain highlighted in a scanning system
Extra Delay		Extra time to highlight the 1st row and column. Blank unless Required > 1 in this test.

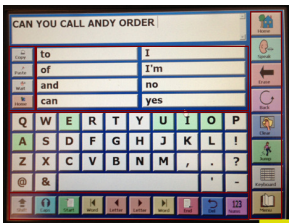

- Compare trial times across switches/sites
- Determine appropriate scan rate

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Enhancing Single-switch Scanning

- 50 year-old man with cerebral palsy
- 5-group scanning display on his AAC system
- Use Compass Switch to define better scan rate

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Enhancing Single-switch Scanning

- Original scan rate = 1.3 sec; Switch hit time = 1.5 sec
- User can't reliably select items within available time

Condition	Scan Rate (sec)	Errors/correct sel' n	TER (wpm)
Original	1.3	2.3	0.28
Revised	1.9	0.33	1.15

- Slower scan rate, better letter layout, lower loop count combine to yield **300% improvement** in TER

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Summary So Far

- Clear Evidence, Better Solutions
- Compass: for assessment, more formal evidence-gathering
- Keyboard and Pointing Wizards: tools for end user to leverage Windows settings effectively

General Purpose Measurement Tools

- Quebec User Evaluation of Satisfaction with assistive Technology (QUEST)
- Psychosocial Impact of Assistive Devices (PIADS)

QUEST - Demers et al. (1996)
PIADS – Day et al. (2002)

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

QUEST

- All types of assistive technology
- Requires that you already have a device
- 12 items: 8 device, 4 service
 - Device:** dimensions, weight, ease in adjusting, safe and secure, durability, easy to use, comfortable, effective
 - Service:** service delivery, repairs and servicing, professional services, follow-up services

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

QUEST

Quebec User Evaluation of Satisfaction with assistive Technology
QUEST (Version 2.0)

Technology device: _____
User name: _____
Date of assessment: _____

The purpose of the QUEST questionnaire is to evaluate how satisfied you are with your assistive device and the related services you experienced. The questionnaire consists of 12 satisfaction items.

For each of the 12 items, rate your satisfaction with your assistive device and the related services you experienced by using the following scale of 1 to 5.

1	2	3	4	5
Not satisfied at all	Not very satisfied	More or less satisfied	Quite Satisfied	Very satisfied
1. the dimensions (size, height, length, width) of your assistive device? Comments: _____				
2. the weight of your assistive device? Comments: _____				
3. the ease in adjusting (fixing, fastening) the parts of your assistive device? Comments: _____				
4. how safe and secure your assistive device is? Comments: _____				
5. the durability (endurance, resistance to wear) of your assistive device? Comments: _____				
6. how easy it is to use your assistive device? Comments: _____				
7. how comfortable your assistive device is? Comments: _____				
8. how effective your assistive device is (the degree to which your device meets your needs)? Comments: _____				

Please circle or mark the one number that best describes your degree of satisfaction with each of the 12 items.

Do not leave any question unanswered.

For any item that you were not "very satisfied", please comment in the section comments.

Thank you for completing the QUEST questionnaire.

QUEST

Top 3: Importance

Below is the list of the same 12 satisfaction items. PLEASE SELECT THE **THREE ITEMS** that you consider to be the **most important to you**. Please put an X in the 3 boxes of your choice.

<input type="checkbox"/> 1. Dimensions	<input type="checkbox"/> 7. Comfort
<input type="checkbox"/> 2. Weight	<input type="checkbox"/> 8. Effectiveness
<input type="checkbox"/> 3. Adjustments	<input type="checkbox"/> 9. Service delivery
<input type="checkbox"/> 4. Safety	<input type="checkbox"/> 10. Repairs/servicing
<input type="checkbox"/> 5. Durability	<input type="checkbox"/> 11. Professional service
<input type="checkbox"/> 6. Easy to use	<input type="checkbox"/> 12. Follow-up services

© L. Demers, R. Weiss-Lambrou & B. Sha, 2000

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

PIADS

- All types of assistive technology
- Requires that you already have a device
- 26 items
 - 12 Competence
 - Independence, Productivity, Expertise, etc.
 - 6 Adaptability
 - Ability to participate, Eagerness to try new things, etc.
 - 8 Self-Esteem
 - Happiness, Security, Sense of power, etc.

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

PIADS

- Rate each item from -3 to +3
- -3 for maximum negative impact
- +3 for maximum positive impact
- Summary score reflects overall impact of the device on the individual's life.

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

PIADS

Psychosocial Impact of Assistive Devices Scale (PIADS) Today's Date: _____ month/day/year

Client Name: _____ (last name, then first name) ☐ male ☐ female

Diagnosis: _____ Date of Birth: _____ month/day/year

The form is being filled out at (choose one) 1. ☐ home 2. ☐ a clinic 3. ☐ other (describe) _____

The form is being filled out by (choose one) 1. ☐ the client, without any help 2. ☐ the client, with help from the caregiver (e.g., client showed or told caregiver what answers to give) 3. ☐ the caregiver on behalf of the client, without any direction from the client 4. ☐ other (describe) _____

Each word or phrase below describes how using an assistive device may affect a user. Some might seem unusual but it is important that you answer every one of the 26 items. So, for each word or phrase, put an "X" in the appropriate box to show how you are affected by using the _____ (device name).

	Decreases	-3	-2	-1	0	1	2	3	Increases
1) competence	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

KPR Koester Performance Research

Uses of Outcome Measures for Individual Cases

- Pre-intervention
 - Understand how well current AT is/isn't meeting needs
 - Identify features most important to user
- Post-intervention
 - How well new device is meeting needs
 - How well services met needs (QUEST)
 - Specify ideas for improvement

OT 7411 Presentation | April 10, 2014 | OSU, Columbus, OH

Uses of Outcome Measures for Programs

- Quality Assurance
 - How well are recommended devices meeting clients' needs
 - How well are services meeting needs (QUEST)
 - Specify ideas for improvement
- Impact
 - What's our program's impact, overall?
 - Are there some AT areas where we have more impact than others?

Conclusions

- Quant can be cool! And effective!
- Clients themselves often really appreciate seeing data about their performance
- Give one of these tools a try, if you haven't already

Final Words

- KPR research & development is supported by:
 - National Institutes of Health
 - U.S. Dept of Education (NIDRR)
 - Paralyzed Veterans of America Research Foundation
- Thanks for your interest!
- Heidi Koester, hhk@kpronline.com
